It is, in any case, agreed that the ether is a substance very different to matter, and is withdrawn from the laws of gravity. It has no weight, is immaterial in the usual acceptance of that word, and forms the world of the imponderable. Yet if the ether has no gravity it must have mass, since it offers resistance to movement.

The World of the Imponderable | NuEnergy

noun. A factor that is difficult or impossible to estimate or assess. 'there are too many imponderables for an overall prediction'. More example sentences. 'Given the proximity of the interviews, there are still many imponderables that make predicting an outcome near impossible.'. 'The second type is a mystery - a question that is not answerable because it is beyond our ability to understand and predict since it depends on so many unknowns or imponderables.'.
