ethnography, AIDS and Accusation: Haiti and the Geography of Blame, Farmer brings to light the North American folk model, presented by medical and social scientists and the popular media, which describes Haitians as mysterious, isolated, disease-ridden, blood- maddened and engaging in exotic, violent voodoo rituals (Farmer 2006, 3).

### Book Review: Farmer, Paul. 2006. 'AIDS and Accusation ...

With an estimated 150,000 people living with HIV/AIDS in 2016, Haiti has the most overall cases of HIV/AIDS in the Caribbean and its HIV prevalence rates among the highest percentage-wise in the region. There are many risk factors groups for HIV infection in Haiti, with the most common ones including lower socioeconomic status, lower educational levels, risky behavior, and lower levels of awareness regarding HIV and its transmission. However, HIV prevalence in Haiti is largely dropping as a resu
