An Introduction To The Five

ABSTRACT The five-factor model of personality is a hierarchical organization of personality traits in terms of five basic dimensions: Extraversion, Agreeableness, Conscientiousness, Neuroticism, and Openness to Experience. Research using both natural language adjectives and theoretically based personality questionnaires supports the comprehensiveness of the model and its applicability

across observers and cultures.

The introduction for a speech is generally only 10 to 15 percent of the entire time the speaker will spend speaking. This means that if your speech is to be five minutes long, your introduction should be no more than forty-five seconds. If your speech is to be ten minutes long, then your introduction should be no more than a minute and a half.
