Amazon.com: Biology (9780072921649): Raven,Peter, Johnson ...

This text is very poorly written. It is unnecessarily obfuscating and jargon cluttered. If there are three terms with which to describe the exact same thing, Raven is sure to give you four. There are much better General Biology texts out there which I had to refer to because Raven makes such a muddle of things.

Biology by Peter Raven, George Johnson, Jonathan Losos ...

Coevolution as a major topic for study in nature expanded rapidly after the middle 1960s, when Daniel H. Janzen showed coevolution between acacias and ants (see below) and Paul R. Ehrlich and Peter H. Raven suggested how coevolution between plants and butterflies may have contributed to the diversification of species in both groups. The ...
