Competing By Design The Power

Competing by Design: The Power of Organizational Architecture, is their guide to reaching that goal through total integration of corporate structure, workplace culture, and employee motivation. Bringing all such processes together into one unified organization, they contend, is as important to a company's future as the architectural unity of the building that houses it.

Holdings: Competing by design

Goold and Campbell (2002) reviewed how organizational executives make design decisions and created nine tests of organizational design. The tests are questions for the consultant to ask the organizational executive and for the organizational executive to then decide whether a possible design meets the standards.

Describe how this organization approaches its external ...
