A checklist for making computer labs welcoming, accessible, and usable As increasing numbers of people with disabilities pursue educational opportunities that require computer use, accessibility of computing facilities is critical. The vision is simply equal access. Everyone who needs to use your lab should be able to do so comfortably.

Equal Access: Universal Design of Computer Labs | DO-IT

Each lab manual is designed with lab objective, basic theoretical background, and sample example with necessary steps to operate with the networking tools and exercise. Before appearing into the lab, all are requested to learn the relevant activities in summary and explore theory/practical concepts of corresponding lab.
