### Computer Mediated Communication by Thurlow, Crispin (ebook)

Computer-mediated communication is defined as any human communication that occurs through the use of two or more electronic devices. While the term has traditionally referred to those communications that occur via computer-mediated formats, it has also been applied to other forms of text-based interaction such as text messaging. Research on CMC focuses largely on the social effects of different computer-supported communication technologies. Many recent studies involve Internet-based social netwo

### Computer-mediated communication - Wikipedia

Computer-mediated communication is "communication that takes place between human beings via the instrumentality of computers" (Thurlow, Lengel, & Tomic, 2004, p.83).
