Abstract. These are the proceedings of the 6th International Conference on Computer Vision / Computer Graphics Collaboration Techniques and Applications (Mirage 2013) which was held in Berlin, Germany, from June 6th to 7th, 2013. The conference is a unique event that brings together scientists and people interested in the interdisciplinary fields of vision and graphics, with special emphasis on the link between the converging disciplines.

Proceedings of the 6th International Conference on ...

Researchers at Dartmouth, in collaboration with industry partners, have developed software techniques that make lighting in computer-generated images look more realistic.
