You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

is a challenging task. Although systematic methods for process design have been developed in the last 25 years, only a few contributions address the simultaneous design and optimization of integrated reaction and separation processes.
