industry groups offer families of contract forms for use by the different parties involved in a construction project.

These industry organizations include the American Institute of Architects (AIA), the Associated General Contractors (AGC), and National Society of Professional Engineers (NSPE).

The activities themselves are divided into two distinct but interdependent phases, upstream and downstream of the award of the contract.

The principles in this guide could be applied to all contracts, from a simple order, through framework contracts, to complex construction or service contracts.
