The business life cycle is the progression of a business in phases over time and is most commonly divided into five stages: launch, growth, shake-out, maturity, and decline. The cycle is shown on a graph with the horizontal axis as time and the vertical axis as dollars or various financial metrics.

Adizes' Corporate Lifecycle. Much like people, corporations move through a lifecycle. Again like people, these lifecycles are not perfectly predictable, although they do have certain characteristics that are shared from company to company. As defined by Dr. Ichak Adizes, the lifecycle of a corporation can be broken down into 10 unique stages.
