Documenting and incorporating the children's voices for baby and toddler groups into early childhood programs and environments when they are not yet speaking can be a challenge for early childhood educators but we just need to approach this type of reflection and documentation a little differently!

How Early Childhood Educators can document childrens voices.

Early childhood education should be no different if it seeks to evolve with the aim of improving overall outcomes for children. Discuss and plan with your team – Documentation enables teams and colleagues to study, interpret and discuss in order to create and adjust learning plans for children and programs. Without organized documentation, this shared reflection would not be possible.

The why and what of documentation in early years programs

Sponsored by Storypark. Documentation takes many forms and is used for several purposes. Most often, we think of documentation as a form of communication with families and the wider community. Yet, it can be so much more! True pedagogical documentation is a tool for responding to children's ideas, planning next steps, authentic assessment, and reflection […]
