## **Photography Tips - Macro Photography - Extreme Close-up ...**

A close-up or closeup in filmmaking, television production, still photography, and the comic strip medium is a type of shot that tightly frames a person or object. Close-ups are one of the standard shots used regularly with medium and long shots (cinematic techniques). Close-ups display the most detail, but they do not include the broader scene.

## **Close-up - Wikipedia**

Small ingredients, like coffee beans, black pepper and even sugar and salt crystals can be the perfect subject for a macro and extreme close up image. The trick when you have more food in the image is to isolate a subject among the others you're using for composition purposes and to fill the frame.
