Ford Escort Manual Transmission Fill

To add fluid to the transmission requires removal of the fill plug that is located on the front left upper corner by the oil pan. Oil is added at that point until oil starts running out or dripping from the stand-pipe. When replacing the fill plug you also need a replacement lock for the plug from Volkswagen.

Ford Transmission Look Up Table

506 Answers There is no transmission dipstick on a manual transmission as well as a filler access point in the engine compartment. If you suspect problems with your transmission have a mechanic service it. If you absolutely want to do this then you need to jack the car up and locate the filler hole on the side of the transmission.
