Internationally, code officials recognize the need for a modern, up-to-date property maintenance code governing the maintenance of existing buildings. The International Property Maintenance Code, in this 2003 edition, is designed to meet this need through model code regulations that contain clear and specific property maintenance requirements with required property improvement provisions.

## **IBC2018 - ICC**

In this course, you are required to study Sections 1601 through 1621 of the 2003 International Building Code. Because the IBC makes numerous references to ASCE-7, it is also necessary for you to have a copy of the ASCE 7. If you or your office do not have these two publications, you may order a copy from the Online Store of ICBO. You may also access the free online version of the IBC 2006 through the following link:
