Reviewed in the United States on February 15, 2001 The IESNA Lighting Handbook (9th Edition) is the best and most complete lighting reference book ever written! It has everything from how luminaires are constructed, to lighting calculations to energy management.

IESNA Lighting Handbook: America, Illuminating Engineering ...

Preface Many of us believe that the ninth edition of the IESNA Lighting Handbook represents a watershed in lighting practice. Over the past twenty years there has been a movement in lighting practice from illuminating engineering to lighting design, a movement from calculations of illuminance to judgments of aesthetics, a movement from quantity to quality.
