Economic Environment in India | Free Study Notes for MBA ...

India has a mixed economy. Half of India's workers rely on agriculture, the signature of a traditional economy. One-third of its workers are employed by the services industry, which contributes two-thirds of India's output. The productivity of this segment is made possible by India's shift toward a market economy. Since the 1990s, India has deregulated several industries.

For analysis' sake, we group them into two: domestic environment of business, and international environment of business. Hitherto (1947 to 1991) largely insulated from the global economy, the Indian economy had been successfully married to the global economy in mid-1991. Since then all the three key sectors fiscal, financial and external had been experiencing a series of structural reforms and macroeconomic adjustments.

Components of Indian Macro- Economic Environment

According to the IMF, the Indian economy grew by 4.2% in 2019, against 6.1% in 2018, forcing policymakers and markets to rethink India's economic outlook. Slower domestic consumption dragged on growth and tighter credit conditions led to weaker private investment, which have translated into fewer jobs.
