### (DOC) Risk Behavior Amongst Today's Youth (Project Task 3 ...

Risky behaviour varies according to gender. Boys are more likely to experiment with fighting and skipping school, while girls are slightly more likely to smoke. Some teenagers are more likely to engage in risky behaviour. Some young people have a tendency to seek out sensation more than others.

### Teenage risky behaviour: a guide | Raising Children Network

At-risk behavior is anything that puts youth at risk for future negative consequences, like poor health, injury or death. And while risky behavior as a teen isn't a new concept (most adults can likely recall at least a few poor choices they made as a teen), the type of risks teens are taking are shifting.

### Overview of Youth At-Risk Behavior

Many teenagers get high from abusing substances which range from diverted prescription drugs to street drugs to inhalants to alcohol. Some of these teens will go on to a life of addiction, abusing increasingly dangerous substances. Some teens will have more short-lived experience, as abusing a drug or other substance even one time can be fatal.

### Factors That Influence Teenagers to Substance Abuse ...

Overall, even among urban minority youth at an increased risk of participating in risky sexual behavior, gang participation appears to be an indicator of a youth at a significantly higher risk of both participating in risky sexual behavior and the negative social, psychological, and health outcomes related to such behaviors.

### Risky Sexual Behaviors among a Sample of Gang-identified ...

Among the socioeconomic indicators that significantly predict risky sexual behaviors and pregnancy are the adolescent's having a parent with low educational attainment and living in a single-parent family. 14 A teenager's own level of academic achievement is positively related to age at sexual debut. 15

### Preventing Sexual Risk Behaviors and Pregnancy Among ...

Risky Sexual Behaviors (RSB) and Depression symptoms expose young people to various reproductive health problems including sexually transmitted infections and HIV/AIDS. To date the link between these two major public health problems lacks empirical evidence in the context of higher education institutions in Ethiopia.
