Roland super jx-10 (Providence) \$500 - JLA FORUMS

It is delivered as a new eeprom (replacement for Roland "ROM A") or as a flash module. (For JX10 owners, check your sound board roms. If they are older than 2.0, they won't support 12 semi-tones for the bender. For MKS70, the very old 1.03 is buggy too) PWM kits are now available again!!!. Please send your request to jx_sales@vecoven.com.

Super JX - vecoven.com

The Roland JX-10 Super JX was a 12-voice analog synthesizer keyboard produced from 1986 to 1989, along with a rack-mounted version, the MKS-70. For nearly 30 years, it was the last true analog synthesizer made by Roland and has been critically acclaimed as one of their classic analog instruments. In 2015, Roland once again started producing analog synthesizers beginning with their JD-XA and JD ...
