A Therapist's Guide to the Psychopharmacology of Trauma and Dissociation. Let's face it - treating trauma is hard work and it's not always clear what needs to be done. Dysregulated nervous systems, co-morbidities, and a myriad of psychotherapeutic and psychopharmacological options often make it difficult to reach the desired goals for your clients. Even though you may not be a prescriber of medications, it's essential that you have a thorough understanding of the effects medication ...
